

HELP ARTEE RECOVER AFTER HIT-AND-RUN MOTORCYCLE ACCIDENT

Hi everyone, my name is **Artee McKoy**, and I'm reaching out after being involved in a **hit-and-run motorcycle accident** this past **Monday, March 16, 2026**.

I was on my way home when another driver **rear-ended me and fled the scene**, leaving me injured and alone. In a matter of seconds, everything changed.

Since the accident, I've been dealing with **road rash on my right leg**, along with **pain in my shoulder, neck, and lower back**. I'm also having **difficulty using my right arm**, which has made even basic daily tasks extremely challenging.

I'm a **gig worker**, and I rely on working every day just to **support my son and provide for myself**. Right now, I'm unable to work the way I normally do, and that's been incredibly stressful.

To make matters worse, I recently learned that I was **underinsured**, and I don't have coverage to protect me in a situation like this—especially since the driver who hit me **took off and may not have insurance at all**.

My **motorcycle was completely totaled**, and I now have **no mode of transportation**. Losing both my ability to work and my transportation at the same time has put me in an extremely difficult position.

Anyone who knows me knows I'm **always willing to help others**. I **love people** and try to show up for those around me however I can.

Now, I'm the one who needs help.

I'm asking for support to help cover my **living expenses while I recover and rebuild**. This has been one of the hardest moments of my life, and any support would mean more than I can put into words.

If you're able to contribute, I'm truly grateful. And if not, **sharing this campaign** would go a long way in helping me get through this.

Thank you for your support during this difficult time.

With gratitude,
Artee McKoy ☐☐
