

HELP CARLOS RECOVER AFTER HIS SERIOUS ACCIDENT

On **October 2, 2026**, I was on my way to work early in the early morning when I was involved in a serious accident that changed everything in a matter of seconds.

I suffered a **concussion with bleeding in my brain, an injured and badly swollen right shoulder, an injured wrist with a chipped bone, injuries to both knees, and a serious groin injury caused by the force of the impact.**

I lost consciousness and did not wake up until I was already in the hospital.

I remained hospitalized for **four days** while doctors monitored and treated my injuries. The brain injury remains one of the biggest concerns. I am scheduled for additional imaging to evaluate the bleeding, and I have already begun physical therapy at home.

Doctors have told me that because of the brain injury, I should remain out of work for **at least four weeks.**

Before the accident, I was working as an **apprentice airplane mechanic.** I love working with aircraft parts, learning the trade, and the people I work alongside. I want nothing more than to heal and eventually get back to the career I enjoy.

The timing has also been heartbreaking for my wife, **Daisy**, and me.

We were married only about **a month and a half before the accident** and were supposed to leave for our honeymoon the following week. Instead of celebrating the beginning of our marriage, we had to cancel our trip because I am now focused on recovering and can barely get around normally.

Daisy has been by my side through all of this, and I am incredibly grateful to have her.

Right now, my focus is on allowing my brain and body to heal, getting through my upcoming medical appointments, and regaining my strength and mobility.

Funds raised through HelpVy will help with **my medical and everyday living expenses** while I remain unable to work and continue my recovery.

If you are able to donate or share my story, Daisy and I would be deeply grateful.
