

HELP MIKE HEAL AND GET BACK ON HIS FEET FOR HIS BOYS

On **October 12, 2026**, I had finished working for the day, gone home to shower, and decided to grab some Wingstop before heading back home. I had a backpack full of chicken wings and was expecting nothing more than a normal ride home.

Instead, I ended up in the hospital.

I was involved in a serious accident that left me with injuries to my **left ankle, foot, knee, and hand**. I am still limping, my foot remains badly swollen and painful, and I have been dealing with headaches ever since the accident. I now need to see a specialist to determine the full extent of the damage to my foot and what treatment I may need.

I spent approximately **eight hours in the hospital** before being released, but going home did not mean everything was okay. Walking is difficult, putting pressure on my foot hurts, and I have not been able to return to work.

When I am not working, **I am not getting paid**.

That is especially difficult because I am a father of **two boys, an 18 year old son and a 10 year old son**, and they are the most important people in my life. My oldest son lives with me and had actually been working alongside me before the accident. Now that I cannot work, this is affecting him too.

I am normally the person who would rather help somebody else than ask for help myself. My friends will tell you that if someone needs something, I am usually one of the first people willing to step up.

Right now, though, I have to accept that **I am the one who needs some help**.

I want to heal, get back on my feet, return to work, and continue being there for my boys the way I always have been.

Funds raised through HelpVy will help with **my medical and everyday living expenses** while I recover, see the specialists I need, and work toward being able to earn an income again.

If you are able to donate or share my story, my boys and I would be incredibly grateful for your support.
