

## HELP MY HUSBAND EARLE RECOVER AFTER HIS SERIOUS MOTORCYCLE ACCIDENT

My name is **Lori**, and I am Earle's **wife**. I never imagined I would be writing this while sitting beside him in his **hospital bed**.

Just a few days ago, Earle was out riding his **motorcycle with friends**, something our family has always loved. During the ride, there was an accident involving **multiple motorcycles**, and in an instant, everything changed.

I knew something was wrong when his riding buddy called me. I didn't want to answer, but I did. And that is when I heard the words no one ever wants to hear. Earle had been in a **serious accident**.

He suffered a **head injury**, a **broken collarbone**, **broken ribs**, a **broken right hand**, and a deep cut over his left eye that required **thirteen stitches**. He recently had **surgery** on his hand where doctors placed pins in his thumb. He is still in the **hospital** and will soon be moved to a **rehabilitation center**.

Earle and I have been married for **thirty six years**. We raised a wonderful **son**, and we are so proud grandparents to our **grandson**. We also have our **precious daughter**, who we absolutely adore. Our family has always shared a deep love for motorcycles.

Earle is **retired**, but he never slows down. He spends his time rebuilding bikes in the garage and is always the **first person to help** anyone who needs it. That is just who he is.

Now we are asking for help for him.

As we face this **long road to recovery**, the **medical bills** and **daily expenses** are

overwhelming. If you are able to **donate**, it would mean everything to us. If not, please consider **sharing this story** or keeping Earle in your **prayers**.

We are so incredibly **grateful** for any kindness, support, and love during this incredibly difficult time. Thank you from the **bottom of our hearts** for standing with us.
