

HELP MY SON DAVID HEAL AND GET BACK ON HIS FEET

My name is **Kristy Moore**, and I am organizing this HelpVy campaign for my son, **David**, after a serious accident on **Saturday, October 24, 2026** left him badly injured and unable to live the independent life he had before.

David was on his way to a **memorial car and bike event benefiting St. Jude** when the accident happened. I received a call from a woman who witnessed what happened, and hearing that my son had been seriously hurt was terrifying. What made that moment even harder was that **I already had another son in the hospital at the same time**. As a mother, trying to process that both of my sons needed medical care at once was overwhelming.

David suffered a **traumatic amputation of a toe on his left foot, significant trauma to that foot, a dislocated right collarbone, road rash, and a deep elbow injury that required stitches**. He remained in the hospital until Monday and is now home on bed rest.

Before this, David was extremely independent. He had his own place, worked hard, and took care of his responsibilities. Now, I am helping care for him while also trying to work myself.

David has worked as a **heavy equipment operator for about 12 years**. It is physical work, and with the injuries to his foot and shoulder, he cannot simply return to what he was doing before.

David is also the proud father of an **eight year old daughter**, who means everything to him, and he has **two dogs** that are an important part of his everyday life. He is outgoing, hardworking, loves his family, and has always been the kind of person who will help someone else before asking for help himself.

He also has bills that do not stop just because he is injured, including his home, truck, insurance, phone, and support for his daughter.

Funds raised through HelpVy will help with **David’s medical and everyday living expenses** while he heals and works toward becoming independent again.

As his mom, I just want to see my son recover, get back to work, and return to the life he worked so hard to build.

If you can donate or share David’s story, our family would be deeply grateful.

Kristy Moore, for David □□
