

HELP NICHOLAS GET BACK ON HIS FEET AFTER HIS MOTORCYCLE ACCIDENT

I never thought I would be asking people for financial help, but after my motorcycle accident on **September 10, 2026**, even getting to the doctor has become a struggle.

That Thursday evening, I was riding my motorcycle to work when I was involved in an accident on Interstate 65 in Mobile, Alabama. Emergency crews took me to the hospital, where I underwent extensive testing. I'm extremely thankful I was wearing **full protective riding gear**, because I know things could have been much worse.

I suffered a **serious injury to my right knee with a deep laceration, a possible fracture near my right tibia, and a right shoulder injury that limits my range of motion**. I needed stitches, I'm currently using crutches and a leg immobilizer, and even something as simple as taking a shower has shown me how far I still have to go.

Before the accident, I worked nights in **armed security for Walden Security**, helping protect property for a power company. I've been there for about a year and a half, and I'm incredibly grateful for how supportive my company and coworkers have been. My job is still waiting for me, but **I cannot return until an orthopedic specialist clears me**.

I've always been **the first person to help and the last person to ask for help**, so starting this campaign isn't easy.

Funds raised will help with **my medical and everyday living expenses** while I recover and work toward getting back to the job I love.

If you're able to donate or share my story, I would be incredibly grateful.
