

HELP QUINTAVIUS RECOVER AFTER HIS MOTORCYCLE ACCIDENT

I can't believe I'm writing this story and asking people for help. But after a serious motorcycle accident changed my life in seconds, I know I can't get through this recovery alone.

On **September 1, 2026**, I was riding my Suzuki 1300 in Las Vegas and **heading to work when another vehicle came into my path and cut me off**. Everything happened so quickly. Instead of arriving at work like any other day, I found myself dealing with injuries that would require surgery and an unexpected road to recovery.

I suffered a **broken right arm and road rash**. The damage to my arm was serious enough that I needed surgery, during which **doctors placed a plate and screws in my arm to repair the fractures to both bones**.

Since the accident, everyday things I once did without thinking have become difficult. My focus is now on managing the pain, healing from surgery, attending medical appointments, and doing everything I can to regain the strength and use of my arm.

The hardest part is not knowing exactly how long my recovery will take. What I do know is that **medical bills and everyday expenses don't stop just because you're injured and unable to live and work the way you did before**.

That's why I'm starting this HelpVy campaign. **Funds raised will help with my medical and living expenses while I recover and work toward getting back on my feet**.

If you're able to donate or simply share my story, I would be incredibly grateful.

I'm determined to heal, regain my strength, and get back to my life. **Right now, I just need a**

little help getting there.

Thank you for standing beside me during my recovery.
