

## HOPING FOR HELP AFTER MY TRAGIC ACCIDENT

Hi everyone,

My name is **Beatrice Gould**, and I never imagined I would be writing something like this.

January 7, 2026, was the worst day of my life. I was involved in a devastating motorcycle accident when another driver pulled out of a parking lot, crossed four lanes of traffic, and collided with me. In an instant, everything changed.

The injuries I sustained were severe and life-threatening. My femoral artery was severed, my right knee and thigh were severely injured, and my right hand was cut through and had to be surgically reattached. I coded and was resuscitated twice during surgery. It's nothing short of a miracle that I'm alive today.

I am self-employed, and doctors are now telling me that it may take up to a year before I am fully healed. This means a long road of recovery with no ability to work for the foreseeable future, while medical bills and everyday expenses continue to grow.

I am a mother to five beautiful children, ranging in age from 19 years old to just 1 year old. They are my entire world, and every day I fight to heal for them.

Motorcycles have always been a huge part of my life. I have been riding most of my life, and motorcycles are deeply rooted in my family. Riding is more than a passion—it's part of who we are.

As I focus on recovery, I am humbly asking for help. The funds raised will go toward medical expenses and everyday living costs as I work to heal and provide for my children during this incredibly difficult time.

Any donation, no matter the amount, will make a meaningful difference. If you're unable to donate, please consider sharing my story or keeping my family and me in your thoughts and prayers.

Thank you for taking the time to read my story and for any support you're able to give. It truly means more than words can express.

With gratitude,  
Beatrice Gould
