

LET'S HELP HALEY AFTER HER ACCIDENT

Hi, my name is **Craig Rubia**, and my daughter, **Haley**, was in an accident recently.

On December 2, 2025, Haley was getting onto the freeway when another driver turned into her while she was passing, causing a sudden and frightening collision. Emergency responders arrived quickly, and Haley was taken by ambulance to **Valley Medical Hospital**, where she remained for several days receiving care and monitoring.

As a result of the accident, Haley suffered a **fractured sacrum**, along with significant bruising to her left hip and left index finger. The pain and limitations from these injuries have made even simple daily tasks difficult, and her recovery will take time, rest, and follow-up medical care.

Before the accident, Haley truly loved her job at **Cycle Gear**. She took pride in her work and enjoyed being active and independent. Unfortunately, because of her injuries, she will be unable to work for at least a couple of months, creating unexpected financial stress during an already challenging time.

The donations raised through this campaign will help cover **medical expenses, living costs, and everyday necessities** while Haley focuses on healing. Any support, whether through a donation or by sharing her story, means more to our family than we can express. Thank you for your kindness, compassion, and support as Haley works toward recovery.
