

SILENTX636 NEEDS YOUR HELP AFTER A LIFE-CHANGING MOTORCYCLE ACCIDENT

Most people know me as silentx636.

I've spent years sharing content, helping people, and trying to make a positive impact online while keeping my personal life private.

Today, for the first time, I'm sharing something I never expected to share.

On June 3rd, I was involved in a serious motorcycle accident that changed my life in an instant.

I was rushed by ambulance to the hospital, where I remained for several weeks before being transferred to a rehabilitation facility to continue my recovery.

My injuries were severe. I suffered a shattered left ankle with compound open fractures, a broken leg, an open fracture of my arm, and multiple deep lacerations that required extensive treatment. I have already undergone surgeries on my arm, leg, and ankle, requiring metal rods and plates to piece everything back together.

My most devastating injury was the acute trauma to my brachial plexus, which resulted in my C7 nerve being severed and left me with almost no mobility in my left arm. Next month we will determine if a nerve graft surgery is needed in order to regain some mobility in my arm.

This has been a life-altering event. My recovery will require ongoing therapy, rehabilitation, and medical care, and adapting to these potentially permanent injuries will be a long road.

My focus is no longer on work. It's on rehabilitation, healing, and learning how to navigate a completely different life than the one I had only weeks ago.

The funds raised will help with medical expenses, rehabilitation costs, and everyday living expenses, while I continue this long recovery journey.

If you've followed me as silentx636, supported my work, or simply want to help someone facing a difficult road ahead, I would be incredibly grateful for your support, prayers, and shares.

Thank you for standing with me during the toughest chapter of my life.

-silentx636 🙏🙏🙏🙏
